A Phenomenology Of Landscape Places

These monuments played an active role in socializing the landscape and creating meaning in it. A Phenomenology of Landscape is unusual in that it links two types of publishing which have remained distinct in archaeology: books with atmospheric photographs of monuments with a minimum of text and no interpretation; and the academic text in which words provide a substitute for visual imagery.

A PHENOMENOLOGY OF LANDSCAPE: PLACES, PATHS AND MONUMENTS. By Christopher Tilley. Landscape has long been central to archaeology as the context within which sites and monuments are preserved, and as a long-lived dynamic entity deserving explanation. Intellectual tussles over the interpretation of ancient landscapes have seen the pendulum of endeavour swing back and forth between Romanticist and Enlightenment traditions but always driving thinking forward in what Andrew Sherratt characterised ...

A PHENOMENOLOGY OF LANDSCAPE: PLACES, PATHS AND MONUMENTS

In archaeology, use of sensory experiences to view and interpret an archaeological site or cultural landscape. In archaeology, phenomenology applies to the use of sensory experiences to view and interpret an archaeological site or cultural landscape. It first came to widespread attention among archaeologists with the publication of Christopher Tilley 's A Phenomenology of Landscape (1994), in which he suggested it to be a useful technique that can be used to discover more about historical ...

Tilley is credited with introducing phenomenology into archaeology with his 1994 work *A Phenomenology of Landscape*. Phenomenology in archaeology entails the 'intuitive' study of material things, especially landscapes, in terms of their meanings to people in the past, and has been influential in both Britain and the United States.
