analogue of high self-esteem or low self-esteem can be created by temporarily leading people to feel good or bad about themselves (e.g., Greenberg et al., 1992; Heatherton & Polivy, 1991; Leary et al., 1995).

CHAPTER 8 SELF-ESTEEM

Background: Persons with multiple sclerosis (MS) have consistently reported lower levels of self-esteem compared with the general population. Despite this, very little is known about the antecedents and consequences of self-esteem in persons with MS. Objectives: To examine (1) physical activity and social support as potentially modifiable correlates (i.e., antecedents) of self-esteem and (2) physical and psychological health-related quality of life as possible consequences of self-esteem in ...
